MEMORANDUM FOR THE RECORD

SUBJECT: Meeting with Mike Epstein of the SSC

1. On Wednesday, 5 September, at the request of [redacted], I met with Mike Epstein in his office. Mike wanted, and was given an update on our effort to locate and inform unwitting drug testing subjects. Mike has in his possession a 3/4 page, double spaced document that appeared to be a summary of our reporting to him. He expressed passing interest in the victim who intends to sue [redacted] but great interest in the test subject who was ultimately hospitalized for psychiatric disorders [redacted]. It is not clear to me where he obtained his information on the hospitalized subject. It was not mentioned in our last written report to him. [redacted] was given an oral status report on the follow-on investigation in which the psychiatric case was mentioned. It seems logical that we would have briefed the SSC about the same time, and I believe [redacted] may have; but if this was done, it was not in my presence.
